Chess (USCF-1500), Cycling, Listening Music, Traveling

PROFILE

Dedicated full-stack developer with a passion for problem-solving. Skilled in creating React-powered front-ends, managing data with Node.js/Express, and integrating MongoDB. Proficient in HTML, CSS, JavaScript, and experienced in working with RESTful APIs and Git. Committed to ongoing learning and staying updated with emerging web development trends.

PROJECTS

Employee Review System

- Created an ERS web app using NodeJS, ExpressJS, EJS, and MongoDB, enabling seamless feedback submission among colleagues.
- Implemented secure authentication with passport.js, including "Sign In with Google" functionality for streamlined user access.
- User-friendly interface for efficient performance feedback, showcasing strong development skills.
- Scalable MongoDB database structure for a responsive and reliable system as the user base expanded.

ECommerce API

- Develop Node.js, Express.js API. JWT authentication secures product edit and delete functions for authorised users.
- Create specialised routes with Express.js for editing and deleting products. HTTP methods (POST, DELETE) manage actions effectively.
- Implement structured edit requests, ensuring data accuracy through server-side validation.
- Forge routes for secure product removal. Authorisation checks and robust error handling guarantee API reliability.

HiveMind

- Delivered a secure Social Media platform with Nodejs, EJS, MongoDB, Redis, and web-sockets for optimal functionality and engagement.
- Enabled real-time communication using web-sockets for instant chatting between users.
- Ensured secure login sessions and data protection with Google SignIn and Passportjs authentication.

ChatSphere

- Developed a feature-rich React.js chat app with Next.js, enabling profile editing, theme customization, and user management (addition and blocking).
- Implemented advanced messaging features like message deletion for everyone or individual users, and support for emoji and photo attachments.
- Ensured a seamless user experience with responsive design and robust error handling, while integrating Firebase for enhanced security and data management.

Shivam's Portfolio

- Created a dynamic web application using Next.js, a powerful React framework, for seamless and efficient rendering.
- Employ TailwindCSS to craft a visually appealing and responsive design, making your site look polished and professional.
- Implement Styled Components to component modularity ensuring clean and maintainable code.
- Sections Included: Develop sections for Qualifications, Skills, Projects, About Me, and Contact Me, providing a comprehensive and user-friendly experience for visitors.

ACHIEVEMENT & ACCOMPLISHMENT

Chess Tournament

- Runner up in Chess Competition on College Annual Sports 2017

Managed Sponsors for TECHNOZION'19 Events

- Part of a team that worked to manage the sponsors for Tech Fest Event and In a personal visit to several firms resulting in Technozion Events sponsor-ships
